Giovanardi.m@northeastern.edu

I find inspiration doing anything related to robotics. I have extensive experience working with CAD, 3D printing, laser cutting, woodworking, and many other engineering related tools.

EXPERIENCE

Matt Roman Design Build Restoration LLC, Cambridge, MA — *Intern*

June - July 2025

I helped streamline the technological and organizational aspects of a private contractor managing a number of sites. My primary responsibilities included organizing construction efforts, providing IT support, and streamlining communication between the construction workers and material providers.

Clearmotion, Billerica, MA — *Intern*

April - May 2025

I trained and coordinated a machine-learning model to recognize various hand, face, and body gestures. The result was a patented, functioning model trained on hundreds of data samples that was able to program a car to respond to these gestures. For example, when a user waved at the car, the car could wave back using Clearmotion's active suspension technology.

Turner Construction, Boston, MA — *Intern*

July - August 2024

I observed the design and construction industry at work, touring multiple parts like an MEP manufacturer, architecture firm, diversity consultant, and several others.

Melrose Soccer Academy, Melrose, MA — *Counselor*

JUNE 2021, 2022, 2023, 2024

Responsibilities included coaching and mentoring young athletes ages 5-13 through various soccer-related drills and activities, as well as reception of players and families at the front desk to collect and file relevant paperwork.

SDM Foundation, Melrose, MA — *SDM Associate*

JUNE 2022 - AUGUST 2022 & JUNE 2023 - AUGUST 2023

Responsibilities include teaching classes to customers, managing children

SKILLS

Solidworks, Onshape,
Matlab, 3D Printing, Laser
Cutting, Carving Machines,
Vinyl Cutters, Machine
Learning/AI

LANGUAGES

Fluent in English (Native
Speaker) and biliterate in Italian

aged 8+, assisting customers with technology

Melrose Youth Soccer, Melrose, MA — Referee

SEPTEMBER 2018 - May 2021

Responsibilities included managing kids ages 7-12, parents, and coaches, making quick decisions, and single-handedly running a soccer field. As a Middlesex Youth Soccer-certified referee, I was the head referee responsible for ensuring the safe operation of competitive club and travel soccer games. This role also included the coordination of several other referees working as my assistant.

First Lego League - FLL, Melrose, MA — Referee

December 2021, 2022, 2023

Responsibilities include managing kids ages 8-13, being a referee at one of the FLL tables during the competition, as well as fixing and maintaining the LEGO game models as needed during the entire-day competition.

EDUCATION

Northeastern University, Boston, MA — Y.O.G. 2025

SEPTEMBER 2025 - Current

Currently enrolled in the College of Engineering studying towards a Mechanical Engineering major with a minor in Aerospace Engineering.

Melrose High School, Melrose, MA — Y.O.G. 2025

SEPTEMBER 2021 - May 2025

3.96 GPA. Graduated with 11 AP credits in various S.T.E.M. fields.

CLUBS/ACTIVITIES

Northeastern Aviation and Flight Club - (2026)

Participating member of the Northeastern Aviation club. As an aspiring student pilot with 45 flight hours, I'm able to provide insight on the aviation industry, and advice to others interested in pursuing their private pilot license.

Northeastern Club Running Team - (2026)

Participating member of the sprinting division of the Northeastern Club track team.

Renewable Energy Northeastern University - (2026)

Designing and manufacturing a functioning wind turbine for competition.

Responsibilities include working in Onshape CAD software to design parts like an emergency brake, blade shape, and pitch control of the wind turbine blades.

First Robotics Competition - FRC (2022 - 2025)

Modeling parts in CAD software, (Onshape.com), designing innovative solutions to problems presented on a partially autonomous robot.

First Lego League Robotics Team - FLL (2016 - 2021)

Designing a fully autonomous LEGO robot and LEGO models to attach to the robot in order to complete various challenges on the game board. The team qualified for the state competition each year, winning an award each year.

Soccer Team at MHS (2021-2024)

Starting goalkeeper of the Varsity team in 2023 and 2024.

Club Soccer Team (2019- June 2025)

Member of the B07 club soccer team, starting goalkeeper, team captain.
